## Compunetix Celebrates its 50th Anniversary

Compunetix, renowned worldwide for advanced collaboration platforms and solutions, is celebrating its 50th Anniversary! On September 27th, employees from across the globe gathered together to commemorate the rare accomplishment. The celebration was held at the Monroeville, PA headquarters of the Pittsburgh-based group of technology companies (Compunetix, Compunetics and Chorus Call).

Compunetix was founded in 1968 by Dr. Giorgio Coraluppi, engineering visionary and one of the founding members of the Pittsburgh Technology Council. This collection of companies has helped drive the global market of electronic collaboration and multipoint communications for half a century. Together the companies employ over 600 personnel in operation centers across 12 countries, providing follow-the-sun support and services to a wide variety of clients and industry segments. Compunetix would like to thank all of our customers and patrons from over the past 50 years, and invite you to learn more about what our dynamic organization has in store for the next 50 at [Compunetix](#), [Chorus Call](#), and [Compunetics](#).

Check out our commemorative 50th Anniversary video [here](#).

VC Daily ([videoconferencingdaily.com](http://videoconferencingdaily.com)) recently reviewed and acknowledged the innovative WebRTC [healthcare collaboration](#) solutions that Compunetix has to offer. The [Video Call Center](#), or VCC, uses browser-based video communication which allows unlimited flexibility and accessibility and is seamlessly embedded in a website. Intended to be utilized as an agent-assisted tool, the Compunetix Video Call Center connects patients, doctors, customers, company representatives and support staff and can even serve as a virtual triage unit. Available for on-premise and cloud deployment, the reliability and customizability of this intuitive solution lets users take the leap into the next generation of high quality remote video communications.

## Compunetix Sells its 200th Mission Voice Platform

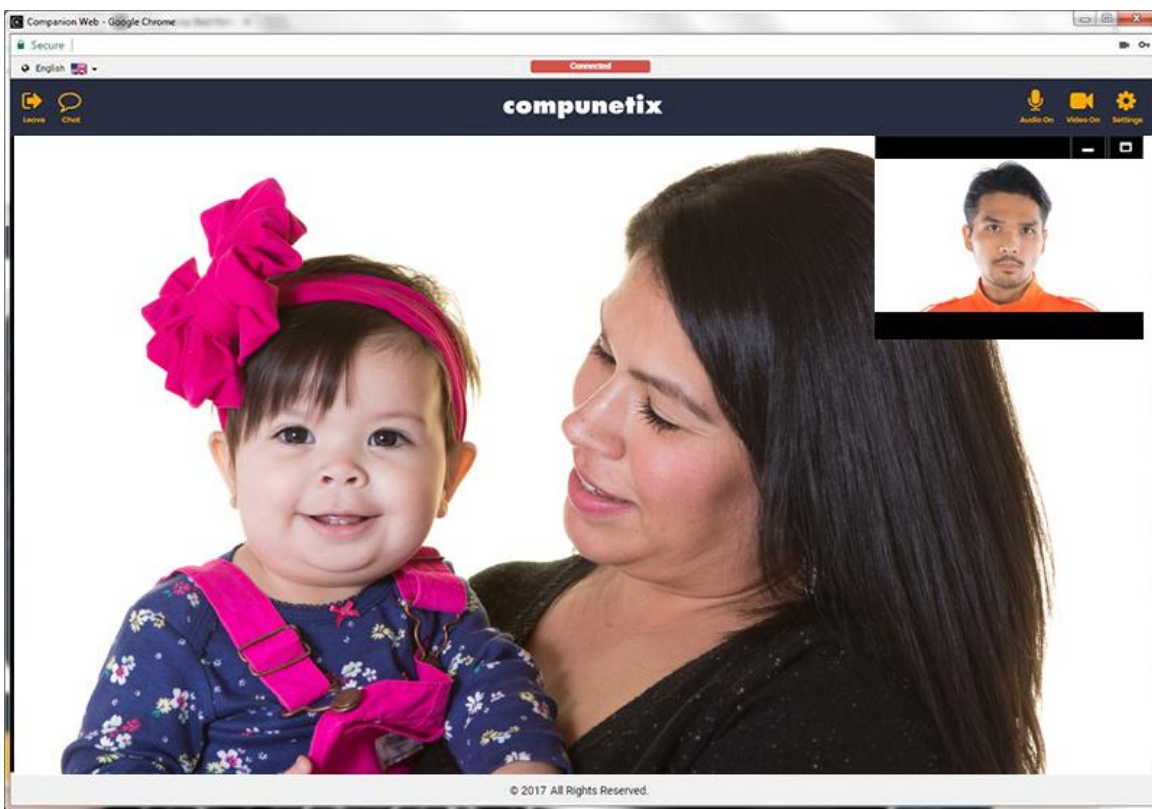

Compunetix is proud to announce the milestone of selling its 200th [MVP \(Mission Voice Platform\)](#) to the U.S. Air Force! As the flagship product of the Federal Systems Division at Compunetix, the MVP connects users through voice ports (radios, phones, etc.) and Compunetix [mission user consoles](#). It is a purpose-built machine for [mission voice environments](#), designed to meet demanding requirements for reliability, maintainability, and security.

The product was launched in 2012 and has since undergone continual updates and numerous additional capabilities. Since then, the MVP has been deployed in numerous command center applications in the U.S. and abroad for the U.S. and foreign military and government applications, including test ranges, training ranges, space launch support, emergency management, satellite control, air sovereignty command, and air traffic control.

## Corrections Forum Magazine Details the Impact of WebRTC Technology by Compunetix

[Corrections Forum Magazine](#) has recently reviewed the technology provided by Compunetix called [Companion Suite](#). Utilizing WebRTC (real time communication) technology, Companion Suite can be used with a standard web browser such as Chrome or Mozilla which revolutionizes prison visits by enabling loved ones with physical or financial difficulty to visit with the inmate from their cell phone, tablet or home computer. Donna Collins, Senior Account Manager at Compunetix, points out that virtual visitation can be used for connecting inmates with family, therapists, lawyers and priests. In addition to added convenience, other benefits include improved client/attorney communications, travel time and cost savings and greater security within, and outside, the facility.

Check out the article [here](#) and [contact us](#) to find out how the [Companion Video Suite](#) can simply enhance video visitation in a wide variety of scenarios.

## Upcoming Trade Events

We're looking forward to attending an event near you!

### [International Telemetering Conference 2018](#)

November 5 - 8, 2018  
Glendale, AZ

### [Florida Telehealth Summit](#)

November 7 - 9, 2018  
St. Pete Beach, FL
