

Compunetix CourtConnect™ with HD Video

KEY BENEFITS

- **Enhance Judicial Productivity**
Simplifies scheduling and eliminates the need for court and legal personnel to travel from hearing to hearing, freeing time for other court-related tasks
- **Secure Collaboration**
Multi-layered security and authentication, dedicated resources, and encryption
- **Addressing the Court**
Participants can remotely "raise their hand," signaling the court moderator and adding them to the queue
- **Quality & Reliability**
High quality audio, high definition (HD) video, and reliable connection
- **Flexible Deployments**
Available as an on-premises solution, Private Hosted solution, or our Standard Hosted solution.

Virtual Court Proceedings:

Connecting to the courts through secure audio & HD video proceedings

Through CourtConnect, Compunetix addresses the growing backlog of court proceedings with a cost effective solution that increases efficiency and reaches mobile constituents in a timely manner.

Offering a high quality and reliable audio/video solution, CourtConnect enhances the overall experience for judges, lawyers, defendants, and more, while also improving the productivity of the courts at large.

Tracking Usage

- Statistical data for each appearance can be used to track contact between parties, their attorneys, and/or the courts.

Digital Session Recording

- With a single click, the main session can be digitally recorded. Users can later retrieve the recorded file by download.

EVERGREEN™ Video

Media Management Console

EVERGREEN™ Video

HD Video

Clear and crisp audio and video offer enhanced communications for remote hearings.

Superior Interoperability

EVERGREEN supports dynamic interconnectivity across standard definition (SD) and high definition (HD) video endpoints, allowing courts and lawyers to utilize existing resources.

Screen Sharing

Reference materials can be quickly and easily shared with all video parties, whenever necessary.

Customizable

Interfaces can be customized and branded to properly reflect specific court systems.

Media Management

Active Talker

A visual indicator enables the host to easily identify the current speaker.

Dial Out

Make quick and efficient dial outs to add parties to the audio conference, as needed.

Attendant Controls

Court Attendants can manage calls with mute, hold, disconnect, record & more via the interface.

Private Sub-Conference (Audio Only)

Plaintiff and defense teams can initiate up to ten sub-conferences off of the main audio conference.
